EDUCATION

MBA (DS & AI)	2024-2026	Indian Institute of Technology, Mandi	**7.81/ 10 CGPA**
B.Tech. (M.E.)	2017-2021	Rajiv Gandhi Government Engineering College Nagrota Bagwan	**7.78/ 10 CGPA**

PROFESSIONAL EXPERIENCE

Responsibilities

Technocolabs Softwares Inc. Data Science Intern Remote June25'-Jul25'

- Built end-to-end predictive models on 144K+ logistics records to estimate travel time, comparing **LassoCV and Random Forest**, with Lasso achieving **Test R^2 of 0.98**
- Reduced prediction errors to **RMSE ~79 and MAE ~38** through advanced feature engineering (time-based, delay %, trip efficiency), scaling, and cross-validation.
- Developed a **RAG-based AI assistant** to analyze customer support tickets using LangChain and LLM, enabling semantic retrieval and context-aware response generation.
- Implemented FAISS vector search with Hugging Face embeddings and optimized data preprocessing to enhance similarity matching and analytical accuracy.

Mrs. Bector Foods Cremica Finance Intern (Gurugram) May25'-Jul25'

- Conducted **capital investment feasibility analysis** (₹70+ Cr capex) using NPV, IRR, and Payback methods, supporting **governance** and **compliance-based** decision-making.
- Designed **Power BI dashboards** for real-time monitoring of inventory aging, production costs, and sales by channel, improving decision-making accuracy.
- Automated **inventory ageing reports in Excel**, **reducing turnaround time by 90%**, and enhancing data visibility across departments.
- Collaborated with plant managers across units to analyse Labour, Power and Fuel (**LPF**) costs relative to output benchmarking efficiency and identifying cost saving opportunities worth 10-15% of total expenditure.

COURSEWORK

Academic Projects

- **Holistic SME Credit Scoring Model | Management Project (Ongoing)**
  Designing a **creditworthiness model** and **credit risk framework** combining **financial data (Prowess IQ)** and **real time sentiment scoring** to assess SME stability and market perception. Conducted SME interviews to identify gaps in traditional bank models and proposed an **AI-driven platform** integrating credit evaluation, **sentiment-based insights**, and **sector-specific government schemes**.
- **Retrieval-Augmented Generation (RAG) System for Question Answering**
  Built a **Lang Graph-orchestrated multi-LLM Retrieval-Augmented Generation (RAG) agent** using **FAISS** for semantic search across PDFs, text files, and OCR-extracted images; with dynamic model selection, tool routing, and intelligent fallback between document retrieval and web search; implemented **tool-based reasoning** including with **reference attribution and multi-chat persistent memory**, deployed via **Stream lit Cloud.**
- **Stock Price Prediction using Deep Learning and News Sentiments.**
  Developed an **LSTM-based deep learning model** to forecast Microsoft's next-day closing price by integrating **10 years (~2,500 days)** of stock data with **news sentiment**. Engineered a **hybrid predictive pipeline** combining financial indicators and sentiment scores, achieving **R^2 = 0.87.**
- **AI Business Analyst Agent**
  Built an **AI-powered business analyst agent** that converts natural language queries into automated sales, discount, and marketing performance analysis.Implemented **LLM-based** intent classification to route user questions to **analytical pipelines** with **multi-dataset** data fusion and **feature engineering**.Developed and deployed an interactive **Streamlit** dashboard with dataset selection, previews, **guided prompts,** and **AI-generated business insights.**

AWARDS & ACHIEVEMENTS

Academics

- 99.98 in Cat **Quants** Section.
- Selected from a competitive pool of **1,000** students as one of the **top 15** candidates for distinguished **SEP**
- Ranked **209** out of **10,000+**candidates in the **HPCET**-a state level engineering entrance examination.

Leadership Experience

- Served on the organizing committee for the 2024 **HST** contributing to event planning and execution. Hosting 100+ Startups and investors.
- Served as **House Captain** for **2** consecutive years, leading a **150**-member team to plan and execute school events while implementing strategies that enhanced collaboration, performance, and school spirit.

Extra-Curricular

- **Qualified** as a **Semi-Finalist** in the **Grant Thornton National Case Competition**, ranking among the **top 50 teams** selected from **4,200+ teams** across India. Click here
- Got the Third position in the case competition organized in the **HIBS conclave** and **AIxcelerate conclave.**

SKILL(S)

Data Science & Machine Learning: Python, SQL, Lang chain, Lang Graph ,Lang smith,Gen AI,NLTK
Statistical Analysis: Regression Analysis, Hypothesis Testing, Forecasting Techniques.
Data Analysis & Visualization: Excel, Power BI.
Soft-Skills: Leadership, Time Management, Empathy, Adaptability
